Cruisecollection // Alu

Design Ludovica Serafini + Roberto Palomba

L'eleganza e il sofisticato appeal della collezione unite alla contemporaneità dell'alluminio delle strutture danno vita alla Cruise Alu. La collezione è caratterizzata da una base in alluminio con piedini pressofusi. La tecnica della pressofusione ha permesso di progettare nel dettaglio il piede che si fa elemento distintivo della collezione donando all'imbottito e ai tavoli un maggiore impatto estetico.

The elegance and the sophisticated appeal of the Cruise Teak combined to the modernity of the aluminium frames give life to the Cruise Alu. The collection is characterized by the use of an aluminium base with die-cast aluminium feet. Die-casting process allows to design accurately the foot, that becomes a distinctive element of this range and improves the aesthetic impact of sofas and tables.

Leafcollection

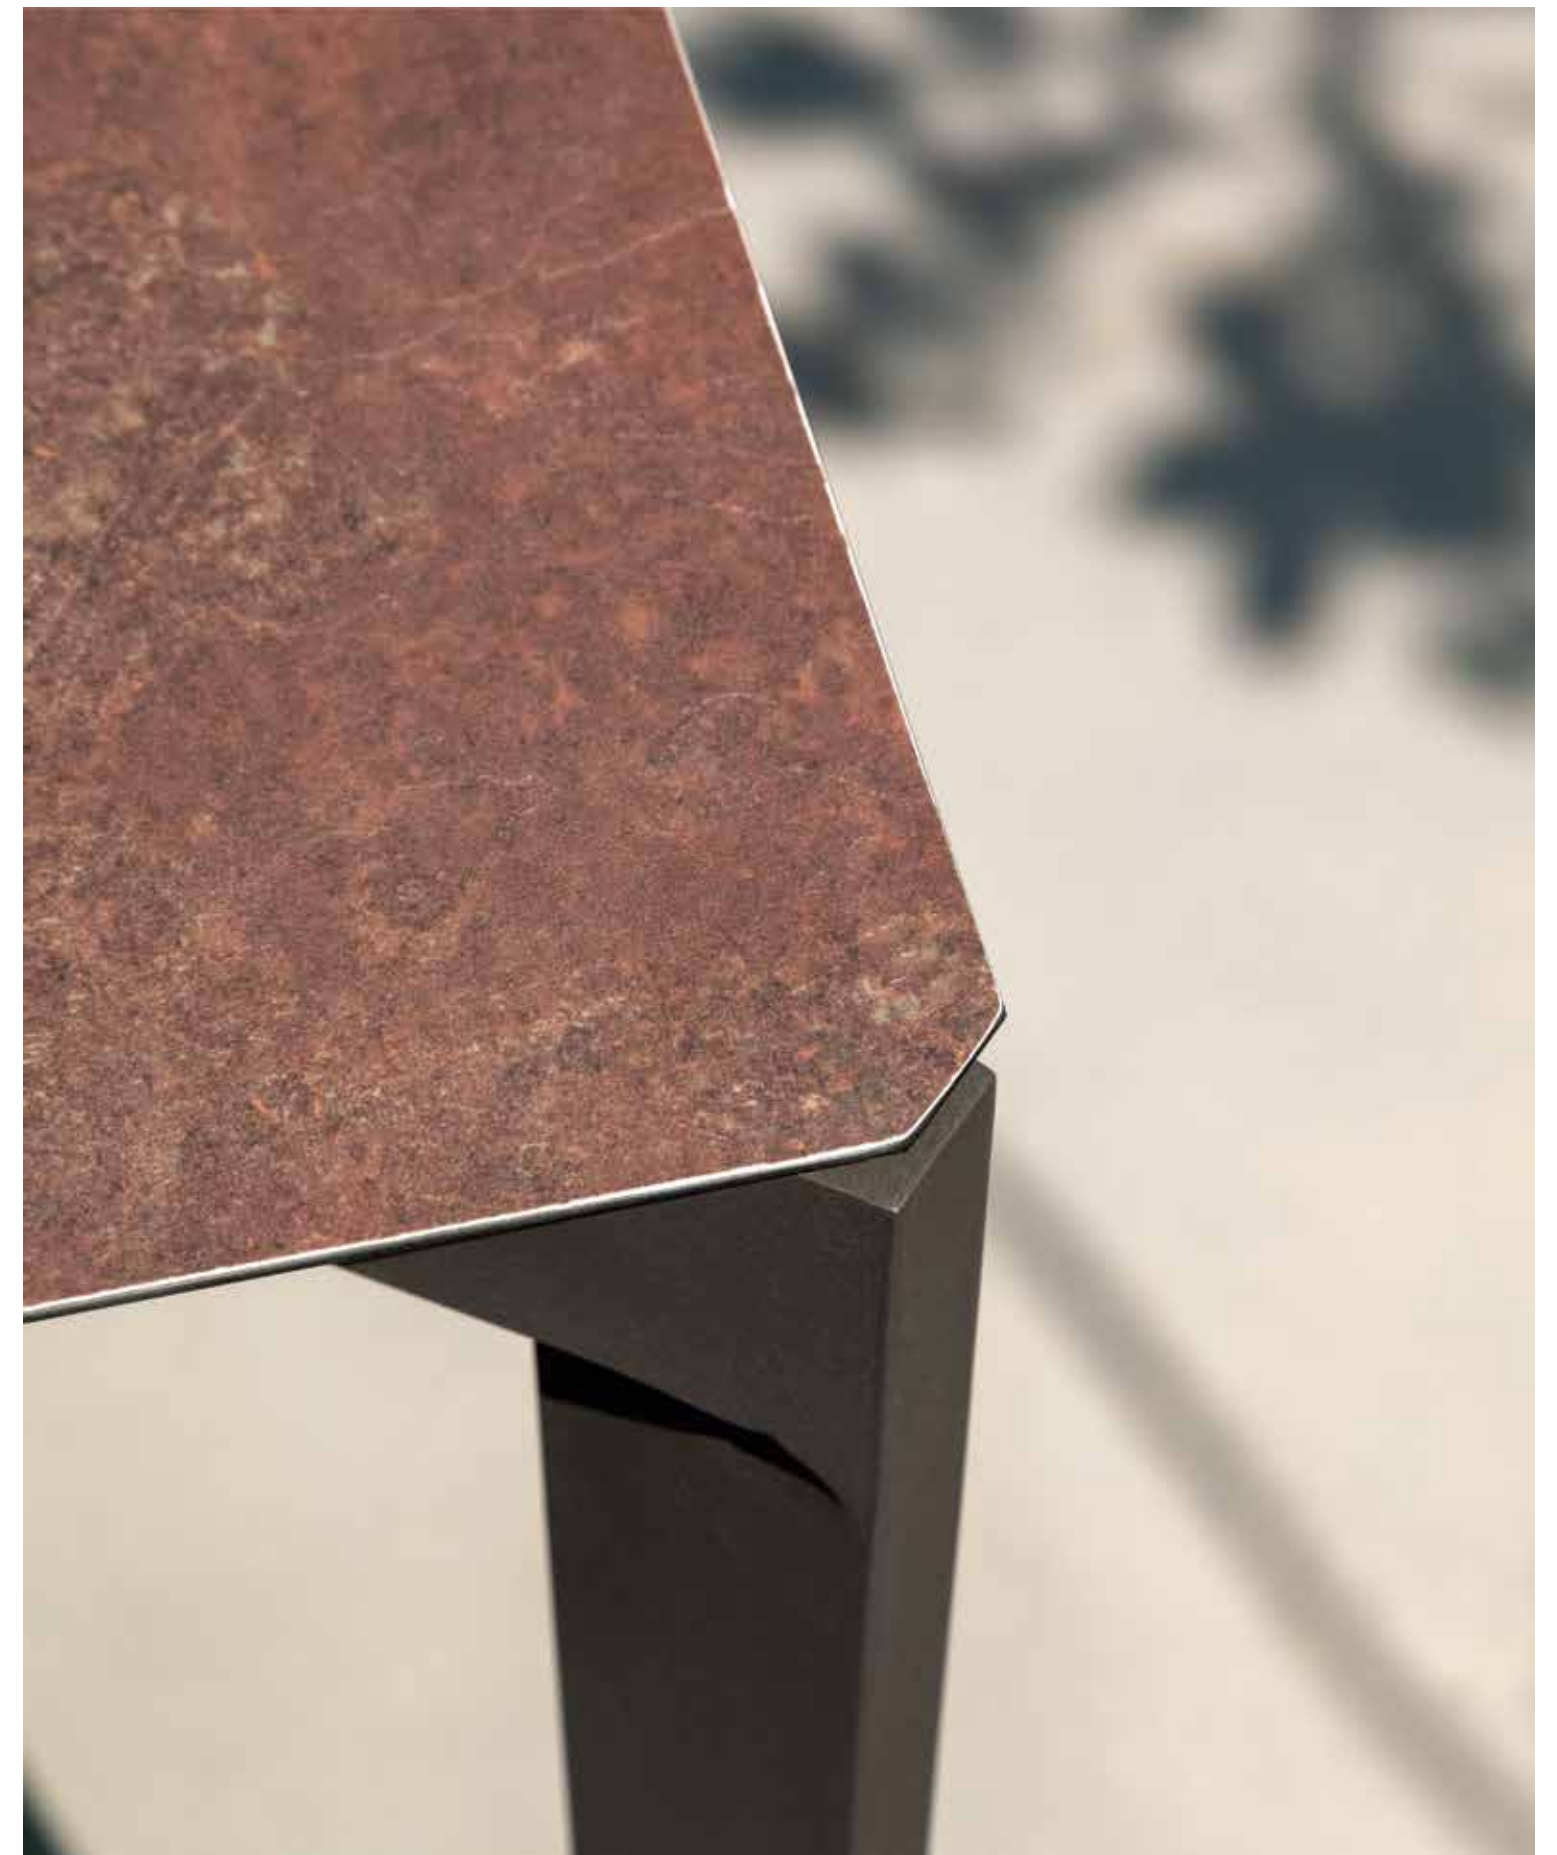

Design Marco Acerbis

Una collezione che si ispira alla natura con cui il mondo outdoor dialoga costantemente. La leggerezza dei petali di un fiore e la loro eleganza sono stati l'incipit per una nuova collezione dove alle proporzioni curate ma generose si unisce il comfort di una cuscineria di grande morbidezza e sensualità. I piedini sono snelli e slanciati per creare un forte senso di sospensione della cuscineria dei divani che sembra galleggiare nell'aria come un fiore sul suo gambo. Tutti questi dettagli e queste sensazioni sono poi naturalmente trasportate nello sviluppo dell'intera collezione che comprende il tavolo, i tavoli da caffè, le sedie ed il lettino prendisole.

Leaf is a collection inspired by nature, with which the outdoor world is in constant dialogue. The lightness of a flower's petals and their elegance have been the incipit for a new collection where the careful but generous proportions are combined with the comfort of cushions of great softness and sensuality. The feet are slender and slender to create a strong sense of suspension of the sofa cushions that seem to float in the air like a flower on its stalk. All these details and sensations are then naturally carried over into the development of the entire collection, which includes the table, coffee tables, chairs and sun lounger.

Cliffcollection

Design Ludovica Serafini + Roberto Palomba

Nata dall'incontro tra accostamenti materici inaspettati e dalla ricerca di linguaggi sempre nuovi, la collezione Cliff è sinonimo di grande versatilità. I dettagli, realizzati con corde nautiche intrecciate e tessuti dai motivi geometrici, creano un senso di giocosità con un tocco super glamour. La varietà cromatica unita alla modularità delle strutture consente di disporre gli elementi in assoluta libertà, generando infinite possibilità di combinazione.

Cliff collection is based on the combination of different materials, born from the research of new ways of expression. It is synonymous of great versatility. The details, made with intertwined nautical cords and geometric-patterned fabrics, create a sense of playfulness with a super-glamorous touch. The chromatic variety combined with the modularity of the structures makes it possible to arrange the elements in absolute freedom, generating infinite combination of possibilities.

Cliff Dèco collection

Design Ludovica Serafini + Roberto Palomba

Cliff Dèco arricchisce la già ampia famiglia Cliff ed è il risultato di una lunga ricerca progettuale e creativa per una nuova generazione di prodotti che strizzano l'occhio al mondo dell'indoor. Un divano moderno ed elegante, che si distingue per il suo design senza tempo, impreziosito da sedute sinuose e avvolgenti, palette tenui ed intrecci realizzati a mano su schienali e braccioli. La collezione Cliff Dèco è sinonimo di grande versatilità, la modularità delle strutture consente di disporre gli elementi in assoluta libertà, generando infinite possibilità di combinazione.

Cliff Dèco enriches the already wide Cliff family and it is the result of a deep projectual research for a collection, that wink at the indoor furnitures. An elegant and modern sofa, characterised by its timeless design. It features sumptuously deep and inviting cushions, fine colour palettes and hand-woven backs and armrests. Cliff Dèco is synonymous of great versatility, thanks to the modularity of the structures makes it possible to arrange the elements in absolute freedom, generating infinite possible combinations.

Evercollection

Design Christophe Pillet

Come suggerito dal nome, Ever è la collezione creata da Christophe Pillet, che si conferma maestro dell'eleganza senza tempo, appositamente per vincere l'inesorabile rincorrersi delle tendenze, in grado di adattarsi ad ambienti ed epoche restando fedele a se stessa. Le linee essenziali, le rotondità delle cuscinerie compongono elementi d'arredo evergreen che guardano al futuro dell'outdoor living facendo tesoro dei grandi classici del passato. Composizioni snelle, e per questo versatili, nelle forme e nei colori, orientati verso sfumature neutre ispirate all'ambiente naturale, esempio per eccellenza di ciclicità e durabilità.

As the name suggests, Ever is the collection created by Christophe Pillet, who confirms his mastery of timeless elegance, specifically to win the relentless pursuit of trends, able to adapt to environments and eras while remaining true to itself. The essential lines, the roundness of the cushions make up evergreen furnishing elements that look to the future of outdoor living, treasuring the great classics of the past. Streamlined compositions, and therefore versatile, in shapes and colors, oriented towards neutral shades inspired by the natural environment, an example par excellence of cyclicity and durability.

Karen collection

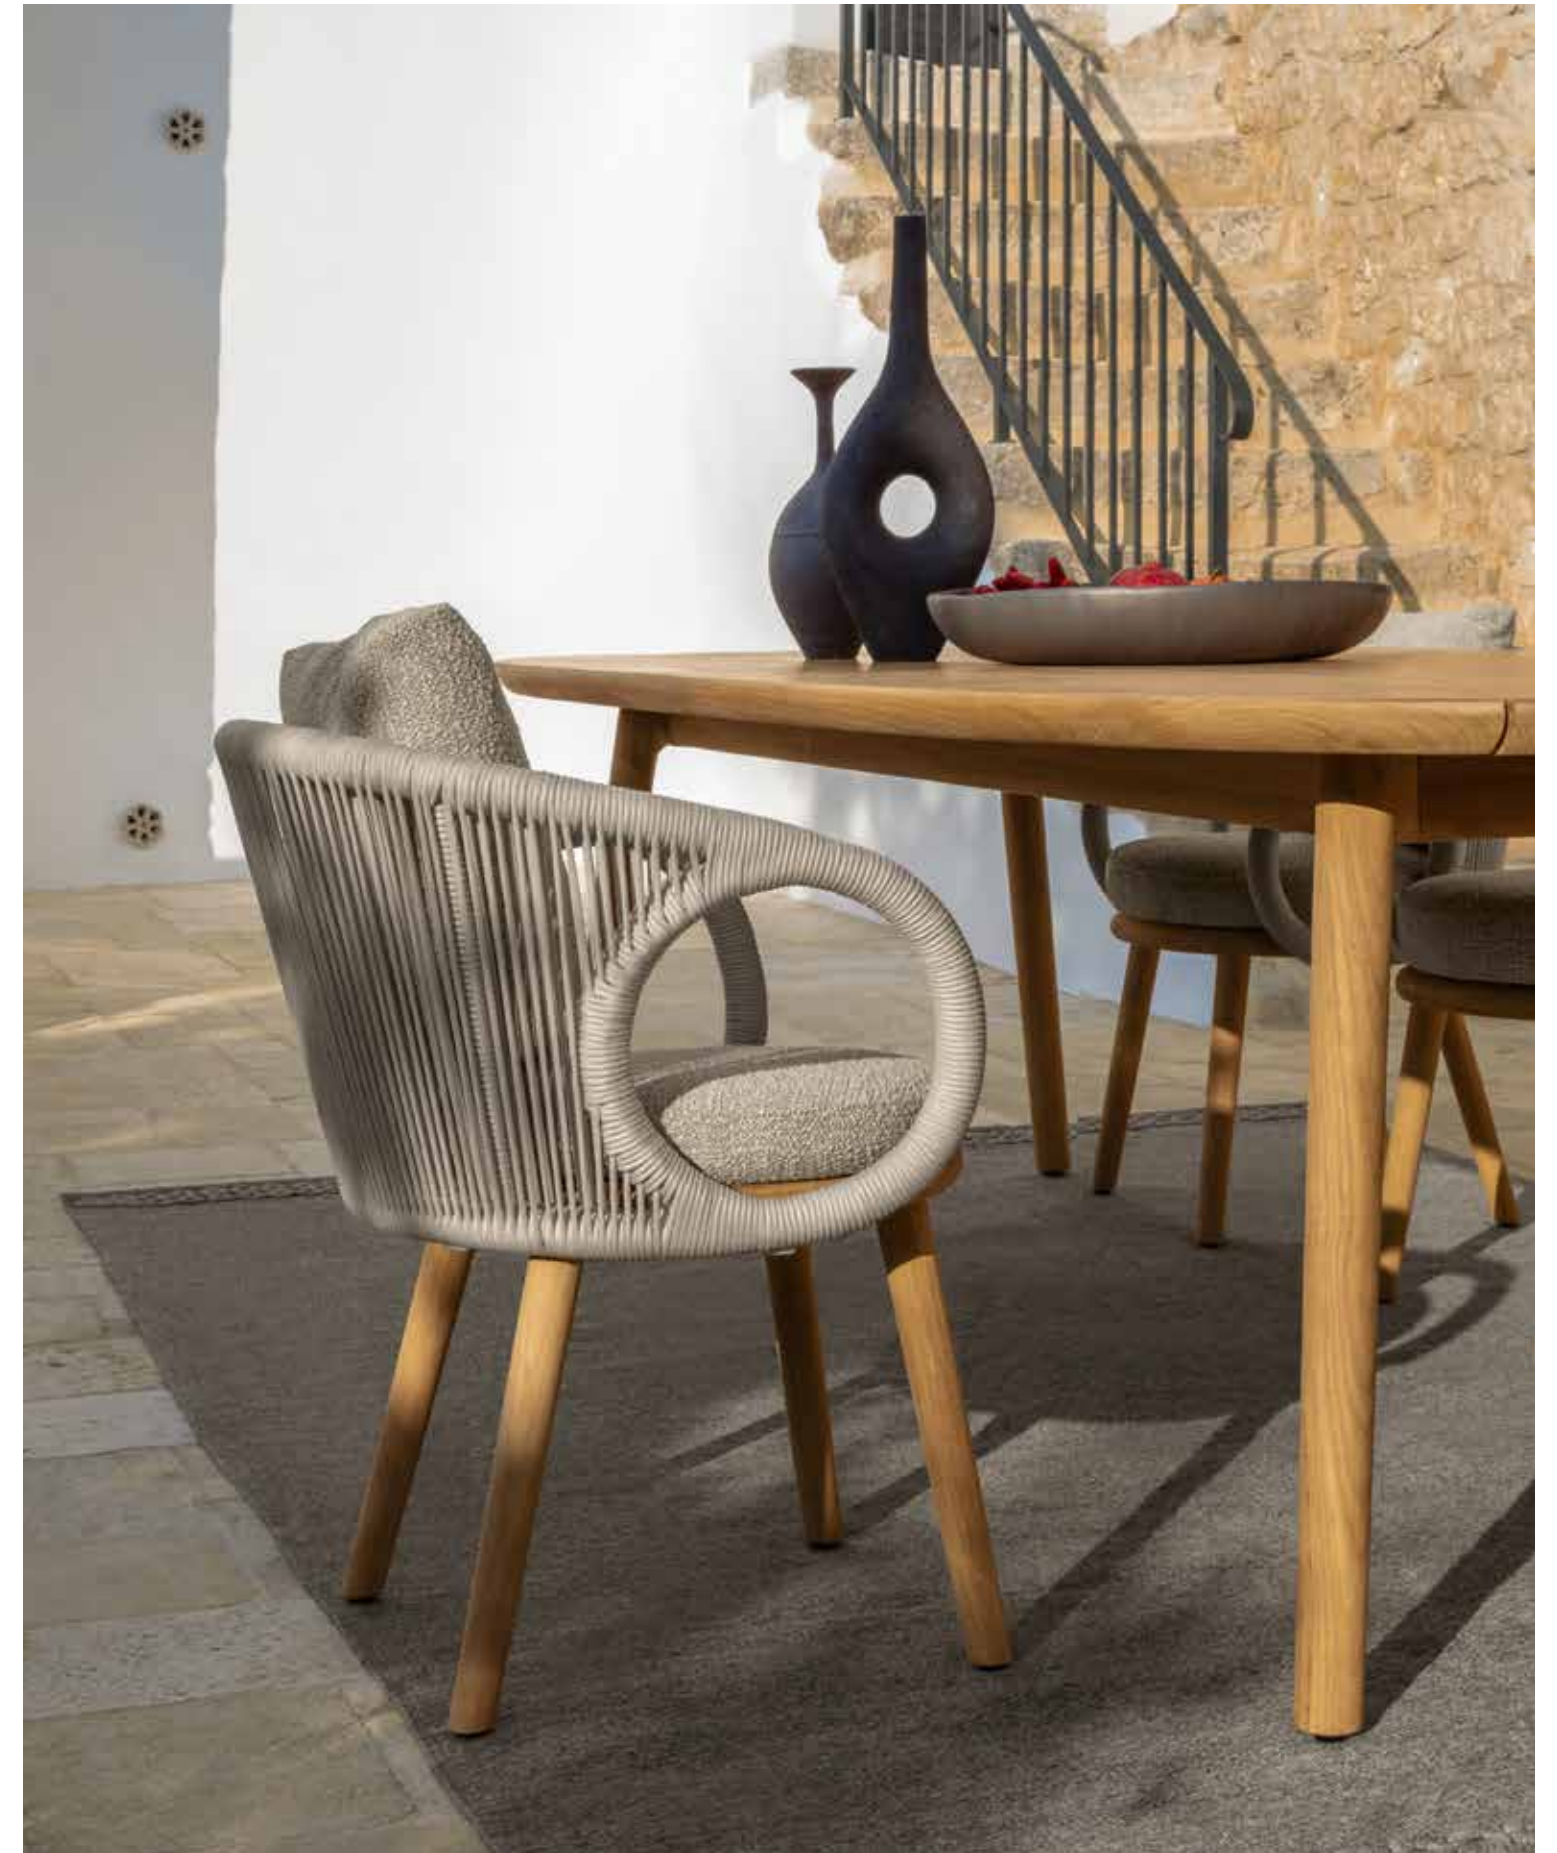

Design Ludovica Serafini + Roberto Palomba

Un progetto che pone al centro estetica ed artigianalità. L'incontro tra culture diverse e l'amore per l' Africa hanno permesso allo studio Palomba Serafini di dar vita ad una collezione unica in cui si è voluto trasportare la forza e la bellezza di questa terra, dagli intrecciati degli anelli che diventano braccioli e dagli innumerevoli fili di tessuto che sorreggono gli schienali. Le sue linee curve conferiscono l'aspetto di un trono e le forme avvolgenti donano all'imbottito l'aspetto di un rifugio, di un bozzolo protettivo.

A project which focuses on aesthetics and craftsmanship. The meeting of different cultures and the love for Africa have allowed the Palomba Serafini studio to create a unique collection in which have been conveyed the strength and the beauty of this land. This inspiration got translated into intertwined rings that become armrests and the countless threads of fabric that support the backrests. Its curved lines give the upholstery the appearance of a throne and its enveloping shapes give it the appearance of a refuge, of a protective cocoon.

Rivieracollection

Design Jean Philippe Nuel

Si tratta di una collezione la cui estetica sublima la funzionalità e il comfort del prodotto attraverso la selezione di materiali pregiati. Tessuti, ceramica e pelle, sono sottilmente combinati con la struttura in alluminio all'interno di un sofisticato design. Le linee luminose e senza tempo si adattano ad ogni ambiente, sia che si tratti di un contesto contract, residenziale o nautico. La Collezione Riviera combina comfort ed eleganza offrendo un'intera collezione per l'outdoor: poltrone, sedie, sedie a sdraio, tavoli, tavoli da caffè, lettini.

The aesthetics of Riviera Collection sublimates the functionality and the comfort of the product through the selection of noble materials. Fabric, ceramic and leather are subtly combined with the aluminum structure within a sophisticated design. The light and timeless lines are capable to adapt to every environment, whatever is a contract or residential or nautical context. Riviera collection combines comfort and elegance by offering an entire collection for Outdoor: sofas, chairs, deckchairs, tables, coffee tables, sun loungers.

Scacco collection

Design Ludovica Serafini + Roberto Palomba

È grazie all'intreccio che la corda disegna nel frame metallico che nasce la Scacco collection, divano modulare che fa delle rotondità degli imbottiti la sua cifra stilistica. Il gioco che si crea fra la parte anteriore, in cui prevalgono tessile ed imbottito, e la parte posteriore, dove "lo scacco" diventa protagonista, è ciò che denota il forte carattere del divano.

Scacco collection is born from the weave created by the rope on the metal frame. A modular sofa whose main stylistic feature is the paddings' roundness. The strong personality of this sofa is the result of the contrast between the frontal part, in which the textile and the paddings stand out, and the back, where the "check" pattern is the key element.

CleoSoftcollection // Wood

Design Marco Acerbis

Le parole chiave della collezione “Cleo” si possono riassumere in volume, forma ed equilibrio. È una composizione che facilmente si declina in modi diversi ma sempre con un senso di calma, eleganza e semplicità. L'equilibrio si fonda principalmente sulla contrapposizione tra il divano, dal carattere rigido e geometrico e una nuova cuscineria morbida di grande accoglienza e comfort.

Volumes, shapes and balance are the key elements of Cleo collection. It is a composition of objects that can be arranged in multiple layouts but always maintaining a sense of calm, elegance and simplicity. The balance is based on the contrast between the sofa, with its rigid and geometric character, and a new soft cushions of great welcome and comfort.

Cottagecollection

Design Ramón Esteve

Lo spirito rustico viene reinterpretato cercando la sintesi formale del mobile contemporaneo. Il risultato è una proposta di arredi da esterno in cui i materiali moderni come l'alluminio e i tessuti tecnici convivono con quelli più tradizionali come la corda, stabilendo relazioni emotive con la mente dell'utente finale.

The countryside mood is redesigned aiming at searching the formal synthesis of the contemporary furniture. The result is a proposal of outdoor furniture pieces, where modern materials such as aluminium and technical fabrics coexist with more traditional ones, such as the rope, that emotionally connect user's mind.

Graphite semi-gloss Cobalt blue semi-gloss Ivory semi-gloss Ruby red semi-gloss

Inox / Stainless Steel

Inox Mokka Gold White Graphite

Materials

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elavata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.
Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.
Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.
Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.
Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cathoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable row material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Doppia treccia costruita con anima in gomma e copertura in olefin multi filamento, resistente ai raggi UV.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori.

The double braid made with rubber core and multi-filament olefyn cover is resistant to UV rays.

We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable to avoid the use of solvents. Use water and non-abrasive liquid detergents with neutral PH and colourless.

Materials

Pietra / Stone

Travertino Silver

Travertino Titanio

Una delle pietre più pregiate e maggiormente impiegate in outdoor è sicuramente il marmo. Il marmo, grazie alla sua particolare composizione e natura, è una pietra poco porosa e poco assorbente, durezza e resistenza, fanno del marmo una tra le pietre più pregiate e durevoli nel tempo. La formazione del marmo avviene mediante un processo metamorfico di cristallizzazione: il carbonato di calcio, venendo in contatto con le rocce sedimentarie, dà vita ad un insieme di cristalli di calcite e minerali vari, i quali ne determinano il colorito.

Per mantenere la lucentezza del marmo e del granito è necessario detergere giornalmente le superfici: è sufficiente diluire il sapone neutro in acqua tiepida. Le superfici dovranno essere strofinate per mezzo di una spugna o un panno morbido. Sarà sufficiente risciacquare con un panno umido, prestando attenzione a non lasciare i fastidiosi aloni di detergente.

Marble is certainly one of the most precious and used stones for the outdoor. Marble, thanks to its particular composition and nature, is a little porous and not absorbing stone, hardness and resistance, making marble one of the most precious and durable stones in time. The marble formation takes place by means of a metamorphic crystallization process: calcium carbonate, coming into contact with the sedimentary rocks, gives rise to a set of crystals of calcite and various minerals, which determine the complexion.

To maintain the shine of marble and granite it is necessary to clean the surfaces daily: it is sufficient to dilute the neutral soap in warm water. The surfaces must be rubbed with a sponge or a soft cloth. It will be sufficient to rinse with a damp cloth, being careful not to leave detergent stains

Ceppo di gré

Sand limestone

Grey moon

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Grazie all'utilizzo di materiali puri compattati tra loro ad alte temperature, senza l'aggiunta di resine sintetiche, il gres risulta molto resistente agli urti e alla flessione.

Per la pulizia dei in piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

The stoneware, thanks to its excellent physical and flexural strenght, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. Composed of pure ingredients compacted at high temperatures, without the addition of synthetic resin.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Cobalt blue semi-gloss

Graphite semi-gloss

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Il gres smaltato è ottenuto mediante la smaltatura manualmente di elementi in gres porcellanato. Le variazioni di colore e di aspetto tra una superficie e l'altra sono imprevedibili e rappresentano il valore aggiunto e la peculiarità di una lavorazione interamente artigianale.

Per la pulizia dei in piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Stoneware, thanks to its excellent physical and mechanical properties, is ideal for outdoor use, as it is resistant to weather conditions and unaffected by UV rays. Glazed stoneware is produced by manually glazing porcelain stoneware elements. The variations in color and appearance between different surfaces are unpredictable and represent the added value and uniqueness of a completely handcrafted process.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Lava è un materiale robusto, consistente e di facile manutenzione realizzato smaltando artigianalmente lastre in pietra lavica o in gres. È un processo che unisce tecnologia e tradizione artigianale in cui vengono sapientemente bilanciati tempo e temperatura, donando inaspettate particolarità alla superficie. I colori, trasparenti e luminosi, applicati con processi manuali, permettono di cogliere, fra le loro sfumature, la porosità e le imperfezioni della pietra. Le lievi variazioni di spessore e tonalità di colore sono quindi valori di prestigio che rendono ogni prodotto unico.

La cottura ad alte temperature ed il vetro, completamente riciclato tramite un esclusivo processo di frantumazione e macinazione, migliora la superficie nelle sue caratteristiche tecniche, capace di rispondere a tutte le esigenze del vivere l'esterno.

Lava is a robust, consistent and easy-to-maintain material made by hand-glazing lava stone or stoneware slabs. It is a process that combines technology and traditional craftsmanship in which time and temperature are wisely balanced, giving unexpected peculiarities to the surface. The colors, transparent and bright, applied with manual processes, allow to capture, among their shades, the porosity and imperfections of the stone. The slight variations in thickness and color shades are therefore prestige values that make each product unique.

The firing at high temperatures and the glass, completely recycled through an exclusive crushing and grinding process, improves the surface in its technical characteristics, able to meet all the needs of outdoor living.

Materials

Cemento / Concrete

Beige cement

Grey cement

Il cemento è un materiale naturale e, in quanto tale, durante il suo processo produttivo possono verificarsi leggere sfumature e variazioni delle tonalità dell'impasto cementizio, che caratteristica portante del materiale e della tecnologia. Le fibre sono una componente dell'impasto cementizio e conferiscono al emento Ductal la sua estrema resistenza e flessibilità. Se la finitura scelta è molto levigata, le fibre possono intravedersi sulla superficie e devono essere accettate come caratteristica intrinseca alla finitura. I piani in cemento, specialmente di grandi dimensioni, non sono perfettamente planari a causa della natura stessa del materiale e della sua lavorazione artigianale.

Micro cavillature da ritiro, devono essere accettare come fenomeno naturale della lavorazione del materiale. Piccoli fori e bolle possono apparire sulla superficie dei prodotti in cemento. Essi sono una naturale conseguenza del processo produttivo e parte integrante delle caratteristiche del materiale. Il loro aspetto e la loro quantità varia da finitura a finitura. I fori inferiori a 4 mm di diametro vengono lasciati tali, mentre di norma vengono stuccati quando superano il diametro di 5 mm.

Il cemento è un materiale poroso che tende ad assorbire i liquidi che entrano in contatto con la sua superficie, per questo va protetto con dei prodotti appositi; antidegrado ed antimacchia. È importante quindi evitare il ristagno dei liquidi sui piani e specialmente il contatto prolungato tra cemento e oggetti bagnati quali vasi, bottiglie, bicchieri o teli di plastica: una non corretta evaporazione dei liquidi può causare infatti macchie difficilmente removibili dai manufatti.

Eseguire una pulizia superficiale con l'utilizzo di una soluzione di acqua e detergente neutro con basso contenuto di cera (es. prodotti per pavimenti in marmo). Per macchie insistenti, è possibile utilizzare soluzioni che contengono ammoniaca/candeggina diluita al 10%, cioè 1 parte di candeggina su 10 parti di acqua.

Cement is a natural material and due to its nature it may present slight nuances and variations in its combination, which is a key characteristic of the material and production technology. Fibres are a component of the cement mix and give the Ductal cement its extreme strength and flexibility. If the chosen finish is highly polished, fibres may be visible on the surface and must be accepted as an intrinsic feature of the finish. Cement top and flat surfaces, especially the large ones, are not perfectly flat due to the nature of the material and its craftsmanship.

Micro shrinkage cracks must be accepted as a natural phenomenon of the material's workmanship. Small holes and bubbles may appear on the surface of cement products. They are a natural consequence of the production process and an integral part of the material's characteristics. Their appearance and quantity varies from finish to finish. Holes smaller than 4 mm in diameter are left as they are, while they are normally grouted when they exceed 5 mm in diameter.

Cement is a porous material that tends to absorb liquids which get in contact with its surface, which is why it must be protected with special products such as anti wear sealant and Anti stain sealant. It is therefore important to avoid the stagnation of liquids on the surfaces and especially the prolonged contact between cement and wet objects such as vases, bottles, glasses or plastic sheets: incorrect evaporation of liquids can cause stains that are difficult to remove.

Clean the surface with water and neutral detergent with a low content of wax (for ex. marble flooring products). Stubborn stains can be cleaned by using a solution containing 10% diluted ammonia/bleach, which is 1 part bleach for 10 parts water.

Materials

Vitter

Light metal

Dark grey

Corten

Il Vitter è un durevole laminato compatto di ultima generazione, senza formaldeide che ha come caratteristica esclusiva quella di essere tutto colore, interno ed esterno. Caratteristiche principali:

- interamente impermeabile
- ignifugo ed autoestinguente (classe B-s2, d0)
- altissima resistenza agli urti e ai graffi
- resiste all'uso di detergenti chimici aggressivi
- adatto al contatto diretto con gli alimenti
- non trattiene odori e sapori
- antibatterico, per rispondere ai più severi requisiti igienici.

In caso di sporco ostinato o incuria rimuovete prima con un panno morbido e umido eventuali depositi di materiale secco, senza sfregare per non rigare la superficie. Utilizzate poi una spugna morbida non abrasiva e un detergente domestico, lavate la superficie con il detergente e risciacquate con acqua tiepida, quindi asciugate bene.

Vitter is the latest generation compact laminate formaldehyde-free carактерized by a durable surface, with the unique feature of being full colour, inside and outside.

Main features:

- it is completely waterproof
- it is flame-retardant and self-extinguishing (class B-s2, d0)
- it has a very high resistance to impacts and scratches
- it s resistant to the use of aggressive chemical detergents
- it is suitable for direct contact with food
- it does not retain odours or flavours
- it is antibacterial, to meet the most stringent hygiene requirements.

In case of stubborn dirt or lack of care, we recommend to first remove any dry deposits with a soft and damp cloth, without rubbing to avoid scratching the surface. Then use a soft, non-abrasive sponge and a household detergent, wash the surface with the detergent and rinse with warm water, at the end dry thoroughly.

Materials

Leather 100 % outdoor

Brown

La pelle è realizzata secondo le più recenti BAT (Best Available Techniques) che garantiscono un’altissima sostenibilità e si distingue per le sue elevate qualità tecniche, che lo rendono ideale per l'impiego in arredo da esterno.
Origine: Pelli fresche di origine Europea, conciate e lavorate con processi sostenibili e in rispetto dell'ambiente.
Finitura: Pieno Fiore Pigmentato
Resistenza a: acqua marina, acqua clorata, maionese, ketchup, vino rosso, caffè, muffe
Cura e Manutenzione: Passare delicatamente un panno asciutto e morbido inumidito di soluzione igienizzante sul cuoio. Lasciare asciugare all'aria a temperatura ambiente, non forzare l'asciugatura con fonti di calore.
Certificazioni Ignifugo: NFPA 260 / CAL TB-117 / IMO 210 part 8 3.1/3.2 / FAR 12

The leather is made according to the most recent BAT (Best Available Techniques) which guarantee a very high sustainability and is distinguished by its high technical qualities, which make it ideal for use in outdoor furniture.
Origin: Raw hides of European origin, tanned and processed with sustainable processes in respect of the environment
Finishing: Pigmented Full Grain
Resistance to: sea water, chlorinated water, mayonnaise, ketchup, red wine, coffee, mold.
Care and Maintenance Gently wipe a dry and soft cloth moistened with sanitizing solution on the leather. Leave to air dry at room temperature, do not force drying with heat sources.
Certifications Flammability: NFPA 260 / CAL TB-117 / IMO 210 part 8 3.1/3.2 / FAR 12

Materials

Cover

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo):
N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua:
mm 1200 - norma EN 1928
- Permeabilità all'aria l/(mq-s):
norma EDANA 140.2-99
- Trasmissione del vapore acqueo: Sd value m 0,051 - norma EN 12752.
- Protezione contro i raggi UV 500/1000 ore

It is made of three coupled layers. The external ones are made of propylene whose function is not only the aesthetic one, since it also protects the internal membrane. Such membrane is the technical fabric that plays the most important role: the permeabilty to air and the impermeabilty. Washing: to wash with soap and water, do not wash in washing maschine or dry cleaning.

- Composition of the fabric: propylene
- Weight of the fabric: about gr 170
- Resistance to laceration (nail):
N(MD) 180 - EN12310-1 Standard
- Resistant to water penetration:
mm 1200 - EN 1928 Standard
- Resistance to air penetration l/(mq-s):
EDANA 140.2-99 Standard
- Water vapor transmission: Sd value m 0,051 - regulation EN 12752.
- protection against UV 500/1000 hours
